GEOFF KNIGHT

Lessons through the lens of a road less travelled.

As speaker, Geoff Knight is vastly more than just the story he tells.

His larger-than-life stage presence, authentic and vulnerable delivery, and compelling narrative connects deeply with audiences. The operatic interludes interspersed throughout his keynotes infuse the room with energy and delight.

He is utterly unique.

Despite being a seasoned and magnetic performer, his keynotes are rooted in real, lived experience that is readily apparent.

Weaving a tale of his journey on a road less travelled, audiences discover his early life as a bullied choirboy given little encouragement, to his time with infamous NZ bikie gang Highway 61, to international operatic tenor. The lessons learned are universally applicable and instantly relatable.

Deeply intuitive, empathetic, and self-aware, Geoff has the ability to work with your organisation to achieve your outcomes and can tailor his presentation to the needs of your event.

With clients including Harcourts International, Commonwealth Bank, Goldwell, Fuji-Xerox and more, Geoff's appeal is clear; he provides an extraordinary story delivered in an outstanding way that leaves audiences provoked, exhilarated and forever changed.
